

## **2007-2008 Key Results**

### **Conference Education Program Committee**

1. Ensure that the conference educational program addresses the PA Competencies and reflects the AAPA's Strategic Management Directions.
2. Actively engage and solicit topic and speaker recommendations from AAPA membership and constituent components.
3. Support the identification and utilization of expert PA speakers through the venue of the annual conference.
4. Support enhanced electronic options for syllabus and their timely submission as well as conference information dissemination.
5. Encourage identified speakers to include issues regarding patient safety, health literacy, patient adherence, diversity, cultural competence, and disparities in health care in their presentations as appropriate.
