How to Build a Search Query

Go to PubMed online <https://pubmed.ncbi.nlm.nih.gov/advanced/>

The screenshot shows the PubMed Advanced Search Builder interface. At the top, there is a blue header with the NIH logo and the text "National Library of Medicine National Center for Biotechnology Information" and a "Log in" button. Below the header, the page is titled "PubMed Advanced Search Builder" and "PubMed.gov" with a "User Guide" link. The interface includes a section for "Add terms to the query box" with a dropdown menu set to "All Fields", a text input field for "Enter a search term", and an "ADD" button. Below this is a "Query box" with a text input field for "Enter / edit your search query here" and a "Search" button. There is also a "Show Index" link.

The following search tools may help you build your own search terms aligned to the National PA Research Agenda. All you need to do is

- (1) pick a profession (e.g., PA, NP, or both)
- (2) a time frame (e.g., in the past 10 years), and
- (3) a search term and
- (4) enter it in the Query Box.

Part 1: Pick a Profession

PA

("physician assistants "[MeSH Terms])

NP

("nurse practitioners "[MeSH Terms])

Both

((("physician assistants "[MeSH Terms]) OR ("nurse practitioners "[MeSH Terms]))

Part 2: Pick a Time Frame

AND ("last 10 years"[Date - Publication])

Part 3: Pick a Locations

US Only

AND (north america[mesh:noexp] OR united states[mesh]) NOT (africa[mesh] OR asia[mesh] OR australia[mesh] OR canada[mesh] OR europe[mesh] OR south america[mesh])

For all locations

Omit the location parameter.

Part 4: Pick a Set of Search Terms Aligned to National PA Research Agenda

Cost-Effectiveness of PAs

AND (("Costs and Cost Analysis" [Mesh] OR "Efficiency" [Mesh] OR "employment" [mesh]) OR ("cost effective" OR "value"))

Patient Outcomes

AND ("Treatment Outcome" [Mesh] OR "Quality of Health Care"[Mesh])

Access to Care

AND (("Health Services Accessibility" [Mesh]) OR ("Rural Health Services" [Mesh])OR ("access to care" OR "underserved"))

PA Supply and Demand

AND "last 10 years"[Date - Publication]

PA Workforce Composition

AND ("employment" [mesh] OR "characteristic" OR "demographic" OR "composition")

PA Readiness to Practice

AND ("employment" [mesh] OR "Professional Autonomy"[Mesh] OR "readiness to practice" or ("education" and "prepared"))

Understanding PA Roles

AND ("employment" [mesh] OR "physician assistant role")

Healthcare Team Outcomes

AND ("Patient Care Team"[Mesh] AND (("Evidence-Based Practice"[Mesh] OR "Health Services Research"[Mesh]) OR (outcome)))

Healthcare Team Dynamics

AND ("Patient Care Team"[Mesh] AND ("Evidence-Based Practice"[Mesh] OR "Health Services Research"[Mesh] OR "Incivility"[Mesh] OR "Work Engagement"[Mesh] OR "Occupational Stress"[Mesh] "Workplace Violence"[Mesh]) OR ("relationship" or "dynamic" or "interaction"))

Patient Safety

AND (("Patient Safety "[Mesh]) OR ("malpractice"))

PA Doctorates

AND (("Educational Status"[Mesh]) OR ("doctorate" OR "doctoral"))

Clinical Sites and Preceptors

AND (("Preceptorship"[Mesh]) OR ("clinical site" OR "clinical rotation"))

PA Work Settings

AND (("employment" [mesh] OR "Workplace"[Mesh]) OR ("setting"))

PA Career Flexibility

AND ("employment" [mesh] OR "career flexibility" OR "specialty change" OR "Career change")

Expansion of PA Roles

AND ("Leadership"[Mesh] OR "Teaching"[Mesh] OR "Research"[Mesh] OR "Consultants"[Mesh] OR "employment" [mesh] OR ("practice owner" OR "role expansion"))

PA Specialization

AND ("Medicine"[Mesh] or "Primary Health Care"[Mesh])

Impact of Regulation on PA Education

AND (("Legislation" OR "regulation") AND "education")

Defining Quality PA Education

AND ("quality" AND "Education")

Patient Satisfaction

AND ("patient satisfaction" [mesh] OR "consumer behavior" [mesh])

Cost of Education

AND ("Costs and Cost Analysis"[Mesh] AND ("education" or "degree"))

Step 5: Put it Together and Search

Two examples of how the search terms will be combined.

PA's and NP's role increasing access to care in the past 10 years

((("physician assistants "[MeSH Terms]) OR ("nurse practitioners "[MeSH Terms])) AND ("last 10 years"[Date - Publication]) AND (north america[mesh:noexp] OR united states[mesh]) NOT (africa[mesh] OR asia[mesh] OR australia[mesh] OR canada[mesh] OR europe[mesh] OR south america[mesh]) AND (("Health Services Accessibility" [Mesh]) OR ("Rural Health Services" [Mesh])OR ("access to care" OR "underserved"))

Patient satisfaction with PAs in the past 5 years

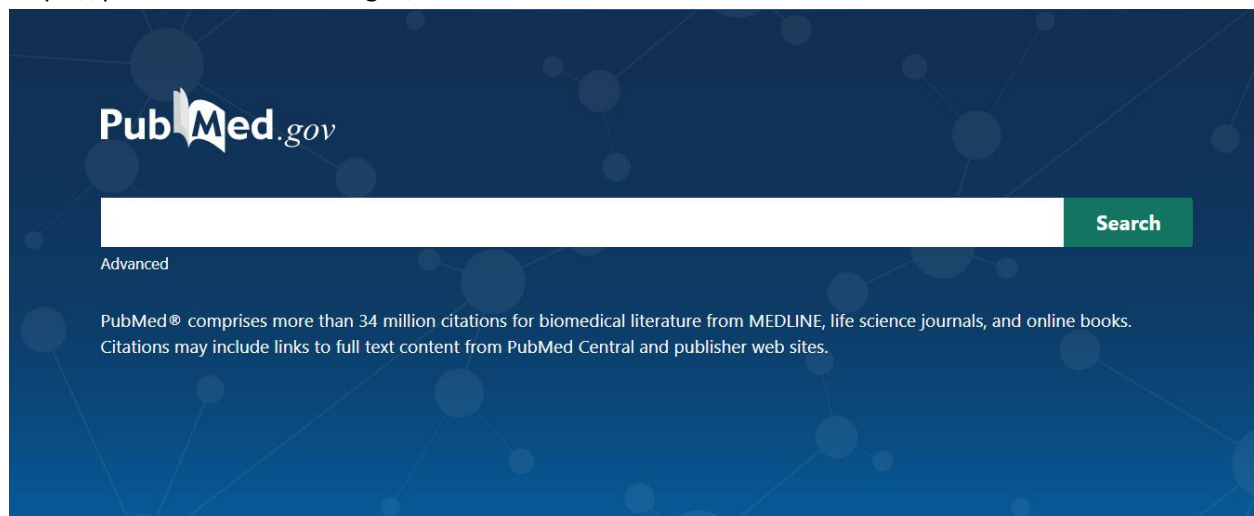

("physician assistants "[MeSH Terms]) AND ("last 5 years"[Date - Publication]) AND (north america[mesh:noexp] OR united states[mesh]) NOT (africa[mesh] OR asia[mesh] OR australia[mesh] OR canada[mesh] OR europe[mesh] OR south america[mesh]) AND ("patient satisfaction" [mesh] OR "consumer behavior" [mesh])

Using MeSH to Build Additional Search Terms

MeSH stands for Medical Subject Headings. They are the specific terms used for indexing journal articles within PubMed.

On the main PubMed Page, select "Explore MeSH Database"
