

# MUSC Health Medical University of South Carolina

Driving APP Billing Performance Megan E. Fulton, DMSc, PA-C System Executive Director, APP Practice, MUSC Assistant Professor, MUSC PA Program SCAPA Legislative Chair CEO, Emerge Health Co., LLC

#### Disclosures

Non-Declaration Statement: I have no relevant relationships with ineligible companies to disclose within the past 24 months.

This presentation and the content herein are solely based on information published in payer policies as of Fall 2022. The materials provided in this presentation are for general information purposes only and do not constitute legal or other professional advice on the subject matter. The material provided in this presentation are not statements of advice, opinion, or information of the presenter. The presenter encourages one to seek the advice of your respective health care counsel and your compliance department for a more detailed explanation of this information and its application to your situation.

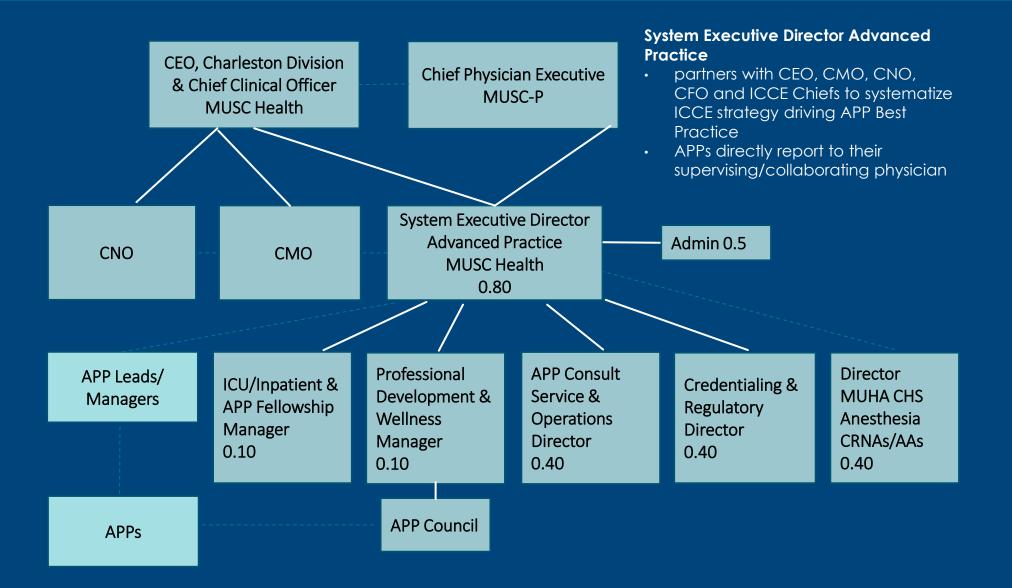

#### **Educational Objectives**

At the conclusion of this session, participants should be able to:

- 1. Review common billing terminology and the basics of APP billing attribution.
- 2. Explore options for building an APP/physician billing algorithm.
- 3. Discuss how to build an APP financial dashboard.

#### MUSC Health APP Best Practice Center Executive Org Chart

#### **APP Best Practice Center Executive Team**

#### Left to Right:

Kristy Smith, MSN, FNP-C APP Consult Service & Operations Director

Jennifer Marshall, MSJ, PA-C Credentialing & Regulatory Director

Megan Fulton, DMSc, PA-C System Executive Director

**Elizabeth Poindexter, MPA, PA-C** ICU/Inpatient & APP Fellowship Manager

**Tracy Halasz, MSN, CPNP-PC, PMHS** Professional Development & Wellness Manager

**APP Attribution** 

"Many organizations continue to struggle with appropriately attributing care provided by APPs, in particular, when there are specific supervision requirements that must be met before the patient encounter can be closed." - Health Leaders Media

### **Billing Terminology**

Performing/Service Provider=provider performing the service independently or under the supervision of a physician

Billing Provider= may be performing/service provider or supervising physician; billing provider is held accountable for billed services

Relative Value Units (RVUs)=work effort +practice expense + malpractice expense = RVU

RVU Target=the total of amount of RVUs either assigned to an individual provider or group of providers that serves as a productivity benchmark with various national comparisons

Net Collections=measure of dollars collected in reimbursement for a practice

# **2022 Split-Shared Situation**

Health Systems want to:

Promote APP/Physician Team efficiencies **Cost:** Optimize Reimbursement

> Access: More patients

Quality: Patient satisfaction scores & LOS metrics

# 2022 Split-Shared Background

APPs evaluate patient while physicians are occupied with surgery or other office patient visits. Physicians would revisit each patient, add "attestation" bill for service under physician NPI with 100% bill capture. Physician would bill for service under physician NPI with 100% bill capture.

# 2022 Split-Shared Assessment

# Physician earns most of not all of the RVUs.

Organizational data demonstrates "less than median APP production."

Some organizations question utility of APPs within the team.

# **2022 Split-Shared Recommendation**

Table 1. Differences in CMS split/shared billing	rule, 2022 to 2023
--	--------------------

Historical rule	2022 rule	2023 rule
APP and physician a part of same group	Unchanged	Unchanged
APP and physician document substantively	Billing provider documents substantively as evidenced by completion of entire history, physical exam, or MDM or more than 50% of the total time spent on the encounter *50% of time must be used for split/shared critical care services	Billing provider must substantively document eligible activities provided, which total more than 50% of the total time spent on the patient encounter
APP and physician have face-to-face encounter with the patient	Face-to-face component of care to be conducted by the APP or the physician regardless of who bills the service as long as the billing provider documents substantively	Unchanged

## Building an Algorithm APP/Physician Team

"Gaining clarity around how to track and ultimately incentivize teams to support new workflows creates a path forward for medical groups interested in evolving their care delivery to better match increased demand for services in an environment where physician resources are in short supply." MGMA

#### Inpatient

#### Accountable Productivity Performance (APP) Inpatient Adult Billing Algorithm<sup>©</sup>

Algorithm compatible with Epic, specific for Nurse Practitioners and Physician Assistants

General Billing Guidelines:

- The APP can evaluate and bill independently for H&Ps, consultations, and discharges per the Hospital Rules and Regulations.
- For all services, each clinical provider must always document their portion of the service, as appropriate.
- For split/shared visit billing, the APP and supervising physician must evaluate the patient on the same calendar day.
- For surgical patients, sub-care services should be documented via progress notes and billed daily until decision for surgery made.
- Procedures performed by an APP must be billed under the APP for all payers as long as procedure is listed in their scope of practice/practice agreement.

### Outpatient

#### Accountable Productivity Performance (APP) Outpatient Adult Billing Algorithm<sup>©</sup>

Algorithm compatible with Epic, specific for Nurse Practitioners and Physician Assistants

Algorithm compatible with Epic, specific for	Nurse Practitioners and Physician Assistants
Column A (APP Bills Independently)	Column B (Supervising MD/APP Shared Visit)
<ul> <li>IF:</li> <li>APP sees patient alone</li> <li>APP sees patient alone and supervising MD stops in to say "Hi."</li> <li>APP sees patient alone and collaborates with MD but MD does not perform and document a portion of the visit.</li> </ul>	<ul> <li>IF:</li> <li>APP and supervising MD both perform and document a portion of the history, physical exam and/or medical decision making in an <u>outpatient hospital location</u>. The service must be billed by the provider who performed the "substantive portion, with or without patient contact" of the visit, <u>which is defined as greater than 50% of time when billing based on time or performance of 1 of the 3 key elements (history, exam or MDM).</u></li> <li>Split/shared rules do not apply in a doctor's office location. In doctor's office locations where both an APP &amp; MD are involved in the visit, the service may be billed under the APP <u>or</u> MD, but the level of service must be based on the billing provider's independent performance and documentation of history, exam and/or MDM.</li> </ul>
<ul> <li>GUIDELINES FOR BILLING:</li> <li>APP documents the encounter, selects LOS, signs note, closes encounter, and types "no" to select no cosign needed</li> <li>APP is both service/performing and billing provider</li> <li>Supervising MD <u>does not</u> co-sign, attest, or add/edit the APP's note</li> <li>If encounter is scheduled with Supervising MD,</li> <li>Change scheduling provider to APP</li> <li>Select No Supervision (if you want to send a copy of the note to the supervising physician, enter name in the recipient field in the follow-up section and send as "CC")</li> </ul>	<ul> <li>GUIDELINES FOR BILLING:</li> <li>IF BILLING UNDER APP: Follow instructions in Column A.</li> <li>IF BILLING UNDER ATTENDING: <ul> <li>If encounter is scheduled with APP, change scheduling provider to Supervising MD</li> <li>APP documents their portion of the visit, signs note, and selects supervision (enter MD with you in clinic)</li> <li>Supervising MD opens note to addend and documents their portion of the visit</li> <li>Adds APP attestation (not resident attestation) and signs note</li> <li>LOS→Select CPT code→ Add FS Modifier (click + to find)</li> <li>Changes service/performing provider</li> <li>Supervising MD clicks accept</li> <li>Signs note/closes encounter</li> </ul> </li> </ul>

#### Notes:

- APP should never select "share" button. Always sign note prior closing the encounter.
- Post op CPT code is 99024 to be entered in LOS- No charge associated with it (part of the global).
- Procedures performed by an APP must be billed under the APP for all payers as long as procedure is listed in their scope of practice/practice agreement. If there is a separate E&M visit, a separate note will be required for the APP procedure.
- Choose 992117 as the LOS to indicate if it is a "Procedure Only" with no separate E&M visit, enter the appropriate procedure charge in the Charge Capture section.

## Preparing for CMS 2024 Cost Analysis & Algo Build Considerations

#### **Cost Analysis, CMS January 2024**

- Gap between APP performing provider/Physician billing Provider vs. APP performing and billing
  - Assuming: APP is performing 50% or great of the service by time

#### **Building CMS January 2024 Attestations**

APP vs. Physician Attestations for *Split/Shared* 

- Time
- Compliance audits ("hover capability")
  - I.e. EPIC

APP Financial Dashboard Access, Cost, Quality

> "Utilizing APPs to their full potential can help improve patient access, reduce the cost of care, advance quality outcomes and increase provider satisfaction." Sullivan Cotter

### **Take Home Points**

At the conclusion of this session, participants should be able to:

- 1. APP billing attribution is only as effective as the APP/Physician working model and an APP Billing Algorithm.
- 2. APP financial dashboard provides transparency around RVUs/Collections/Lag Days and promotes discussion around:
  - a. APP Utilization
  - b. APP Staffing
  - c. APP Compensation
  - d. APP Compliance
  - e. APP Quality
- 3. CMS 2023 Rule is delayed until January 1<sup>st</sup>, 2024
  - a. Split/shared only applies to outpatient and inpatient hospital encounters (not doctor's office locations doctor's office locations do not allow for split shared billing)
  - b. Split/shared critical care time's only change was that in 2022 the APP and Physician could combine their total time spent with patient.
