Tier 1 – Constituent Organizations

Constituent Organizations are independent organizations that are eligible for Tier 1 fees:

Duty of Care organizations are those whose staff are responsible for the provision of care to the public or their employees. - Professional associations targeting their employees or members
- Government or military organizations or agencies
- Other organizations targeting their own professional staff or members

Tier 4 – All Other Organizations

All other organizations that do not fit the descriptions in Tiers 1-3, or which AAPA deems as most appropriately being placed in Tier 4, will be subject to Tier 4 fees; these commonly include:

- Medical education companies and their partners
- Communications companies and their partners
- Other organizations that do not qualify for Tiers 1-3, regardless of tax status
