The Honorable Tom Cole Chair Subcommittee on Labor-HHS-Education Appropriations Committee United States House of Representatives Washington, D.C. 20515

The Honorable Roy Blunt Chair Subcommittee on Labor-HHS-Education Appropriations Committee United States Senate Washington, D.C. 20510 The Honorable Rosa DeLauro Ranking Member Subcommittee on Labor-HHS-Education Appropriations Committee United States House of Representatives Washington, D.C. 20515

The Honorable Patty Murray Ranking Member Subcommittee on Labor-HHS-Education Appropriations Committee United States Senate Washington, D.C. 20510

Dear Chairmen Cole and Blunt and Ranking Members DeLauro and Murray:

The undersigned members of the Health Professions and Nursing Education Coalition (HPNEC) write to recommend \$580 million for the Health Resources and Services Administration (HRSA)'s Title VII health professions and Title VIII nursing workforce development programs in the fiscal year 2018 Labor-HHS-Education spending bill. With the FY 2017 Omnibus Appropriations Act adding Behavioral Health Workforce Education and Training (BHWET) to Title VII, the FY 2018 HPNEC recommendation also includes funding for that program.

HPNEC is an alliance of national organizations representing schools, programs, health professionals, and students dedicated to ensuring the health care workforce of tomorrow has the training and resources needed to adequately serve the country's healthcare needs, including those in the most underserved communities.

Current and growing workforce shortages remain a healthcare access barrier for individuals in rural communities, children and families on low incomes, seniors, and veterans. Title VII and Title VIII are the only federally-funded programs that seek to improve the supply, distribution, and diversity of the health professions workforce, with a focus on primary care and interdisciplinary training. These programs help shape the workforce in targeted ways, such as promoting interprofessional, team-based care; promoting service in underserved areas; and filling other gaps in the health care workforce.

The full spectrum of Title VII and Title VIII programs is essential to prepare our next generation of medical professions to adapt to the changing health care needs of the nation's growing and aging population. By assessing the needs of the communities they serve, Title VII and Title VIII programs

bring together knowledge and skills across disciplines to provide effective, efficient, and coordinated care.

While HPNEC recognizes the challenges you face in the constrained budget environment, we urge you to ensure the next generation of health professionals is equipped to address the nation's health care complexities by providing \$580 million for Titles VII and VIII in FY 2018.

Sincerely,
