What is a PA?

PAs (physician associates/physician assistants) are licensed clinicians who practice medicine in every specialty and setting. Trusted, rigorously educated and trained healthcare professionals, PAs are dedicated to expanding access to care and transforming health and wellness through patient-centered, team-based medical practice.

AT A GLANCE

PA profession established in 1967

PAs have more than 400 MILLION patient interactions per year

Approximately 150,000 PAs in the U.S. NCCPA, 2022
