

dexcomG6

ZERO FINGERSTICKS.* ZERO SCANNING. ZERO COST.†

Prescribe a no-cost sample of the Dexcom G6 Continuous Glucose Monitoring (CGM) System for your patients with diabetes. Greater accessibility and coverage make it easier to get them started than ever before.

Hello Dexcom is a no-cost sampling program that helps introduce the features and benefits of Dexcom G6.

One third of patients pay \$0 out of pocket at the pharmacy for their Dexcom G6.^{†1}

Three out of four patients on mealtime insulin have pharmacy coverage for the Dexcom G6 CGM System.²

Visit provider.dexcom.com for more information about the Dexcom G6 Continuous Glucose Monitoring (CGM) System.

*If your glucose alerts and readings from Dexcom G6 do not match symptoms or expectations, use a blood glucose meter to make diabetes treatment decisions.

†Patient must have a Dexcom G6 prescription and a compatible smart device (sold separately) as part of this 10-day experience: dexcom.com/compatibility. Dexcom G6 can be provided at no cost for the sole purpose of allowing a healthcare provider and/or patient to evaluate if Dexcom G6 is right for the patient. All recipients of this pack are strictly prohibited from collecting any compensation related to it. This offer is void where prohibited by law. Dexcom may modify or rescind this offer at any time without notice. For the complete version of the terms and conditions, please visit dexcomprovider.com/hello.

¹Refers to the estimated out-of-pocket cost for eligible commercially insured patients for the Dexcom G6 sensor and transmitter when claims are adjudicated as a pharmacy benefit, and includes benefits and offerings through available Dexcom programs, such as the voucher program. Actual cost may vary and is subject to individual insurance coverage. ²Dexcom, data on file. Oct. 2020-March 2021. ³Dexcom, data on file. 2020.

Expanded coverage and lower costs³ help support more of your insulin-using patients.

Dexcom users report the lowest out-of-pocket costs,³ and Medicare copay is the same price as that of other CGM brands.⁴

Follow these two steps:

1. Enter 'Dexcom G6' in your e-prescribing software and select the quantities and refills for each component.
2. Sign, order, and submit prescription to ASPN or your patients' preferred local pharmacy.

Dexcom G6 sensor

Dexcom G6 transmitter

Dexcom G6 receiver

BRIEF SAFETY STATEMENT Failure to use the Dexcom G6 Continuous Glucose Monitoring System (G6) and its components according to the instructions for use provided with your device and available at <https://www.dexcom.com/safety-information> and to properly consider all indications, contraindications, warnings, precautions, and cautions in those instructions for use may result in you missing a severe hypoglycemia (low blood glucose) or hyperglycemia (high blood glucose) occurrence and/or making a treatment decision that may result in injury. If your glucose alerts and readings from the G6 do not match symptoms or expectations or you're taking over the recommended maximum dosage amount of 1000mg of acetaminophen every 6 hours, use a blood glucose meter to make diabetes treatment decisions. Seek medical advice and attention when appropriate, including for any medical emergency.
