

Trusted for 50 years. Ready for 50 more.

Since 1967, PAs have been improving patient outcomes and moving healthcare forward. Always innovative. Always flexible. Always ready for what's next.

As we prepare for the next 50 years in healthcare, we view challenges as opportunities. Unforeseen circumstances as possibilities. Because PAs have always achieved the extraordinary.

This PA Week, we celebrate five decades of excellence and a future of endless potential.

Celebrate your way with free resources from AAPA.
