

Application deadlines near for **LBGT PA Caucus PA Student Leader Fellowships** for diverse PA students:

- The 15th annual Student Leader Fellowship is open to all sexual and gender minority PA students.
- The 2nd annual Student Leader Fellowship offered jointly by the African Heritage PA Caucus (AHPAC) & LBGT PA Caucus is open to all PA students who identify as sexual and gender minorities and Black or of African heritage.
- The 1st annual Student Leader Fellowship offered jointly by PAs for Latino Health (PALH) & LBGT PA Caucus is open to all PA students who identify as sexual and gender minorities and of Latinx heritage. PA Elias Villarreal has generously funded this fellowship.

The purpose of the Student Leader Fellowship program is to develop PA leaders in medicine who reflect the communities we serve. The LBGT PA Caucus has decided to join forces with fellow constituency organizations to support future leaders within Black and Latinx communities. Fellowship alumni continue making an impact through their service in elected board leadership roles after their graduation.

The jointly sponsored AHPAC/LBGT Fellowship program was piloted in 2020 to support PA students who identify as Black and LGBT. This year it is being expanded to empower future PA leaders of other intersectional and diverse minority backgrounds.

These fellowships are intended to identify and elevate diverse PA students who desire service through leadership. All fellows receive 12 months of leadership development and professional networking with their future PA colleagues. The intersectional fellowships also include a unique monthly mentorship opportunity with LGBT PAs of color, providing fellows with a supportive professional community.
