

PA Cross-Organizational Pledge

The four national PA organizations (AAPA, ARC-PA, PAEA and NCCPA) have a valuable opportunity to address racial, ethnic and other divides within the PA community by promoting diversity, equity and inclusion (DEI).

The CEOs of the four national PA organizations and PA leaders hold influence over the future of the PA profession and health care. As representatives of the profession, they invite the types of people who choose to become PAs and shape how they behave. By committing to take an active stance to address racial and ethnic inequalities in the profession, these leaders can elevate diversity, equity, and inclusion to the front of the PA profession.
